ABOUT US

JD Industries is having a 18yrs of experience in the field of PHARMA & BULK EQUIPMENTS , our company having a successful experience with new technologies, innovations, new idealization & implementation.

Our Company is equipped with high end infrastructure spread across 4000 sq.ft. of property includes sophisticated machineries, a state-of-the-art engineering and assembly department having a tool room section, a machining section, a drawing/designer's section, testing equipments.

“JD Industries” presents all Engineer Excellence for Innovation, by delivering optimum quality at best price. JD Industries manufactures different types of machines which include Pharma, Bulk, Cosmetic, Chemical, Agri and Aqua, Food Processing Machinery. The company is known for innovative manufacturer for processing system for drying, granulating, mixing, milling, size reducing, blending, coating, stirring & homogenizing units.

VISION: Our vision is to carve our self as one of the most dynamic and customer centric companies, where people can rely and discover all types of processing and Blending machineries. We endeavor to explore our efficiency in all ways to give the best products to our customers beyond their expectations in terms of wide range of selection, the lowest prices, prompt delivery and wonderful quality product experience to the buyers.

MISSION: Our each product is uniquely designed to meet our client's expectations. Our mission is very clear to serve customers by providing real essence of modern dynamics coupled with the advanced technology. We are continuously on the growth path to evaluate our machines.

IN-TANK HOMOGENISER

The homogenizer is often necessary to mix one or more substances within a liquid. This device allows to micronize and scatters the particles suspended in the fluid, so that the product become highly stable, no matter the followings treatments and stockings the products may undergo. The homogenizer delivers unparalleled consistency and control of high shear process applications such as, Immiscible Phase Emulsifying, Homogenizing, Wet Grinding, Texturing and Fine Dispersing.

APPLICATION

Homogenisers are widely used in Pharmaceuticals, veterinary, Agriculture, Ayurveda, Herbal processing, Liquid sections...etc

SILENT FEATURES

- SS 316 in the place of SS 304
- All contact parts of SS 316/304
- Efficiency in crushing the uneven lumps homogenously.
- Wide range of homogenisers are available from 3HP to 25HP
- Heavy structured stand with NO vibration
- Different types of cutters are used as per application.

OPTIONAL:

- VFD drive for machine
- Rpm setting with timer assembly
