

JD INDUSTRIES

Mfrs. of Pharma, Bulk & Food Processing Equipments

AN ISO 9001 : 2015 CERTIFIED COMPANY

www.jdindustries.net

ABOUT US

JD Industries is having a 18yrs of experience in the field of PHARMA & BULK EQUIPMENTS , our company having a successful experience with new technologies, innovations, new idealization & implementation.

Our Company is equipped with high end infrastructure spread across 4000 sq.ft. of property includes sophisticated machineries, a state-of-the-art engineering and assembly department having a tool room section, a machining section, a drawing/designer's section, testing equipments.

“JD Industries” presents all Engineer Excellence for Innovation, by delivering optimum quality at best price. JD Industries manufactures different types of machines which include Pharma, Bulk, Cosmetic, Chemical, Agri and Aqua, Food Processing Machinery. The company is known for innovative manufacturer for processing system for drying, granulating, mixing, milling, size reducing, blending, coating, stirring & homogenizing units.

VISION: Our vision is to carve our self as one of the most dynamic and customer centric companies, where people can rely and discover all types of processing and Blending machineries. We endeavor to explore our efficiency in all ways to give the best products to our customers beyond their expectations in terms of wide range of selection, the lowest prices, prompt delivery and wonderful quality product experience to the buyers.

MISSION: Our each product is uniquely designed to meet our client's expectations. Our mission is very clear to serve customers by providing real essence of modern dynamics coupled with the advanced technology. We are continuously on the growth path to evaluate our machines.

MULTI-MILL MACHINE

Multi Mill operates on the principle of variable force swing beaters rotating in process chamber with selected speed to get the desired size reduction with highly power efficient size reduction unit with wide range of applications.

APPLICATION: Multi Mill is widely used to break lumps into small particles used in Pharmaceuticals, Chemicals, Food, Ceramics, Pesticides, Fertilizers, Detergent, Plastics, Resin and other industries.

SALIENT FEATURES

- All contact parts SS 304 / 316 / 316L AISI quality, Machine rated for continues operation.
- Various combinations of screens / speeds / number of blades / direction of rotation blade, can be selected High output with process uniformity & Dust free operation
- All contact parts can easily be dismantled and cleaned for change of product. Wide range of SS perforated and wire knitted screen available direction of blade rotation by reversing switch.

OPTIONAL

- SS 316 in place of SS 304 in Non contact parts
- Flameproof electrical fittings
- GMP model in place of standard model
- AC frequency drive for variable speed.
- Belt less Drive
- Vertical mounting & Inline milling process with Sifter assembly

Technical Specifications

MODEL	JDI/MM
Capacity per Hour	50 Kg to 200 Kg Depends on products, speed and sieve size
Rotor Speed	750/1500/2300/3000 RPM by step pulley, VFD (optional)
Mesh Size	Can be used accordingly
Charging Height	1445 mm
Discharging Height	730 mm
Motor	3 HP/2.25 Kw/3 Phase/1440 RPM/AC
